

MOBILE CASH DRAWER SOLUTIONS

TabletPRO™ for Cash Drawers

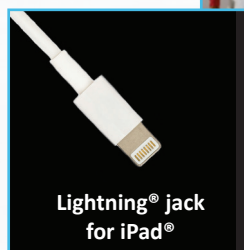

Contact your APG sales representative at (763) 571-5000

The TabletPRO™ Model 550 Cash Drawer for iPad® provides a simple, cost-effective cash drawer for an Apple iPad® tablet. Connected by wire to the iPad®'s Lightning® jack, the retailer's app can quickly connect to and use the cash drawer. The TabletPRO™ solution facilitates mobile POS transactions. Store associates who remove the tablet to assist customers can capture a sale at the point of decision. Cash transactions are queued up for completion (if their POS app allows) once the tablet is reconnected to the cash drawer via the Lightning® jack cable.

The cash drawer may be used without a power adapter or if a power adapter is connected the cash drawer will recharge the iPad®'s battery.

Key Features:

- The Model 550 Cash Drawer for iPad® connects by cable to the Lightning® jack of the iPad®.
- The iPad® controls the cash drawer through the cable (not via Bluetooth or WiFi).
- The cash drawer supports a power adapter connection. Then the cash drawer can recharge the iPad® while in use, if you choose.
- Available for the Series 4000, Series 100, and Vasario Series cash drawers
- Detachable Lightning® jack cable included
